

Animate a Walk Challenge

Template & Submission Guide

Studio LKY × XPPen India

This README contains the technical specifications, template instructions, and submission requirements you need to create your entry.

TECHNICAL REQUIREMENTS

Resolution: 1080 × 1080 px

Frame Rate: 24 FPS

Length: 109 frames

Submission: PNG Image Sequence (preferred) or MP4 (H.264)

Audio: Not required

The supplied music is provided **only as a timing reference**. You do not need to include the music or any other audio in your final submission.

A seamless loop is **preferred**, but it is not mandatory.

THREE WALKING SPEEDS

You will find templates and example animations for **three different walking speeds** in this package:

FAST

NORMAL

SLOW

Choose whichever speed works best for your idea.

Each speed includes:

- A template
- An example animation
- The corresponding music/timing reference

HOW TO USE THE TEMPLATE

The templates contain **Step markers** along the timeline.

- Fast walk speed markers

- Normal walk speed markers

- Slow walk speed markers

As the music/video progresses, a cursor moves across the template and indicates **when a footstep should occur**.

Use these markers as a guide for timing your animation.

The most important thing is that your animation feels synchronized with the supplied music and maintains the selected walking speed.

If you find the timing difficult to work out yourself, simply use the **Step markers shown in the template** as your timing guide.

SUBMISSION

Each participant can submit **up to 3 entries**.

Your entries can be completely different in terms of:

- Characters
- Animation style
- Concept
- Background
- Walking speed

However, a participant can only occupy **one position in the Top 10**.

Accepted formats

MP4 — H.264

PNG Image Sequence (please zip your image sequence files)

KEEP YOUR SOURCE FILES

Studio LKY may randomly ask participants to show their **work-in-progress or source files** to verify the creative process and ensure compliance with the contest rules.

Please **keep your original project/source files intact** until the contest has concluded.

YOUR WORK REMAINS YOURS

- Your artwork and animation remain the property of you, the creator.
 - By submitting your entry, you give Studio LKY permission to showcase your work on its social media and as part of the official Make a walk challenge compilation.
 - Studio LKY may also showcase individual entries, primarily to promote and give exposure to the artist and their artwork.
 - Studio LKY will never claim a participant's work as its own.
-

QUESTIONS & DISCUSSION
